PABALLO MOIPONE LITABE

IT Support Specialist | Junior System Administrator | Microsoft 365 Administrator

TECHNICAL PROJECTS

1

Active Directory Administration Lab

- Configured Active Directory users, groups, and organizational units.
- Managed Group Policy Objects (GPOs), password policies, and permissions.
- Implemented account lockout and security policies to enhance security.
- Performed troubleshooting and documented configurations and procedures.

Tools/Technologies: Windows Server, Active Directory, Group Policy, PowerShell

Repository: <https://github.com/Phabwey/Active-Directory-Administration-Lab>

2

Microsoft 365 Administration Lab

- Administered Microsoft Entra ID, Microsoft Teams, and Exchange Online.
- Configured Multi-Factor Authentication (MFA) and security policies.
- Managed users, licenses, groups, and role-based access control (RBAC).
- Created conditional access policies and monitored service health.

Tools/Technologies: Microsoft 365 Admin Center, Entra ID, Exchange Online, Microsoft Teams, PowerShell

Repository: <https://github.com/Phabwey/Microsoft-365-Administration-Lab>

3

Python Helpdesk Ticket System

- Developed a helpdesk ticket management system using Python.
- Implemented features for ticket creation, updates, status tracking, and search.
- Stored ticket data in CSV files and enabled export functionality.
- Improved workflow efficiency for IT support operations.

Tools/Technologies: Python, CSV, Tkinter

Repository: <https://github.com/Phabwey/Python-Helpdesk-Ticket-System>

4

Student Performance Analytics Dashboard

- Built a Python-based dashboard to manage student records and marks.
- Performed data analysis and generated reports and visualizations.
- Implemented CSV data handling and automated calculations.
- Helped identify top-performing students and class performance trends.

Tools/Technologies: Python, Pandas, Matplotlib, CSV

Repository: <https://github.com/Phabwey/Student-Performance-Analytics-Dashboard>

5

Digital Connect Internet Café System

- Designed and developed a web-based internet café management system.
- Implemented customer registration, booking, and payment tracking.
- Managed system data using MySQL database.
- Deployed the system on a hosting platform for client use.

Tools/Technologies: HTML, CSS, JavaScript, PHP, MySQL

Repository: https://github.com/Phabwey/Digital_Connect_Portfolio_Website.html
